**UltraFit® Reusable Earplugs**

The reusable UltraFit® Earplugs feature a patented swept-back triple-flange design that allows one size to fit a wide range of ear canals, providing a much greater amount of sealing surface than other flanged products. These washable earplugs do not require rolling prior to insertion, and the soft stem used for insertion means plugs remain untouched, greatly reducing risk of ear contamination. Available corded and uncorded, with or without handy carrying case. One pair per poly bag. Sold per pair. NRR 21 dB.

Item No.	Description	Unit	EA	10
EAR3404003	UltraFit® Uncorded	100	00.00	00.00

EAR3404001	UltraFit® Uncorded with Case	100	00.00	00.00
EAR3404002	UltraFit® Corded with Case	100	00.00	00.00

**UltraTech® Earplugs**

UltraTech® Earplugs employ a unique design that features an innovative sound damper inside the plug, reducing sound levels of all frequencies almost equally and allowing workers to hear the true sounds of the machinery around them. Ultra-thin, three-flange soft polymer earplug conforms to side of ear canal to form a triple seal against harmful noise. Non-toxic, non-allergenic and washable. UltraTech® earplugs are packed one pair per poly bag with carrying case and chain, matching attachable cord, and instructions. Sold per pair. Available in NRR 12 dB and NRR 16 dB.

EAR3163016	Ultratech®Corded, NRR 16	Pair	00.00	00.00

**E•A•R Express® Pod Plugs® Reusable Earplugs**

Express® Pod Plug® design removes the need to roll plugs prior to insertion, eliminating hand-to-ear contamination. Slow-recovery foam inserts easily. Less foam means less pressure, less sound distortion and more comfort. Soft flexible grips make insertion and removal easy. Patented InstaSeal™ assures comfortable, efficient and lasting seal. Available corded and uncorded, in Blue or assorted tip colors. One pair per reusable pillow pack, 100 pair per dispenser box. Sold per box. NRR 25 dB.
