

Centurion[®] Chemical Splash Safety Goggle

A NEW ANGLE IN SAFETY GOGGLES.

- Wrap-around lens is impact resistant and offers a wide angle view for excellent peripheral vision.
- A wide back opening allows for wear over large safety glasses and a wide nasal flare accommodates most half-mask respirators.
- There are two mask types available: [Impact \(direct vented\)](#) and what you see above, Chemical Splash (indirect vented).
- Tough, Duralite[®] polycarbonate high impact lens provides 99.9% UV protection.
- Fits over most personal glasses
- Fits well with many half mask respirators
- Vertical vent system promotes air circulation over lens surface to help reduce fogging
- Both types available with and without Durafon coating with anti-fog, anti-static and anti-abrasion properties
- Meets ANSI Z87.1 Standard
