

# THIS IS BEYOND

## NEW OX™ SAFETY EYEWEAR

OX: THINK SAFETY

**INTRODUCING OX SAFETY EYEWEAR.** The model is wearing OX2000 with clear lenses. The OX1000 are shown below with clear lenses. Available with 2 different temple options.

### OX™ over-the-glass eyewear extends the view, increases the comfort and provides custom fit and adjustability for prescription eyeglass wearers.

**Other performance features include:**

- Lightweight, High-impact Duralite™ Polycarbonate Lens
- All-Around Coverage
- Two Temple Designs
- DX™ Anti-Fog Hard Coat Available
- Exceeds ANSI Z87.1 and CSA Z94.3 High Velocity Tests

**X SERIES. PERFORMANCE BEYOND THE STANDARD.**

# NEW OX™ SAFETY EYEWEAR

## Convenient Over-The-Glass (OTG) Design

It's the best of both worlds. Prescription eyeglass wearers get the added safety of the all-around polycarbonate lens without sacrificing the vision, comfort and familiarity of their own personal glasses. Tough, high-impact Duralite™ polycarbonate lens provides 99.9% UV protection.

## Panoramic, Peripheral-Plus View

Seamless lens with built-in sideshields provide an uninterrupted sight range and optically correct peripheral vision.

## Lightweight Design

Unlike many competitive models, OX is a lightweight optical lens combined with adjustable temples to make for an easy fit for a short visit or all-day usage.

## Choice of Adjustable, Custom-Fit Temples

Choose from a standard spatula temple, or an adjustable length Secure-Grip™ temple to fit virtually any size face. Secure-Grip temples feature a patented pivoting axis to hold eyewear securely in place.

## Beyond The Standard Protection

OX eyewear exceeds ANSI Z87.1 and CSA Z94.3 safety standards. All lenses are anti-static and UV resistant. Optional DX™ anti-fog hard coat resists fogging, scratching, static and chemical attack.

Choose from standard or Secure-Grip™ temples
