

THIS IS BEYOND

NEW QX™ SAFETY EYEWEAR

QX: THINK PROTECTION

INTRODUCING QX SAFETY EYEWEAR. The model is wearing QX2000 with gray lenses. The QX3000 is shown below with clear lenses. Available in 6 lens colors and with 3 different temple options.

QX™ safety eyewear takes protection higher than ever.

Exceeds ANSI Z87.1 and CSA Z94.3 High Velocity Tests

Exceeds Military V₀ Test Regimen for High Velocity Impact Protection*

Other performance features include:

- Extended Wrap Around Coverage
- Soft Non-Slip Nosepiece Option
- Patented Easy-Change Lenses
- Distortion-Free Optics
- Three Temple Designs
- DX™ Anti-Fog Hard Coat

*QX2000 and QX3000 models

X SERIES. PERFORMANCE BEYOND THE STANDARD.

Beyond the Standard™
www.aosafety.com

NEW QX™ SAFETY EYEWEAR

Now, Safety Eyewear's Even Safer QX is not your typical safety eyewear. With its advanced construction, it exceeds ANSI Z87.1 and CSA Z94.3 High Velocity Impact Tests, and exceeds Military V₀ Test Regimen for High Velocity Impact Protection.* All lenses feature high-impact Duralite™ polycarbonate construction that provides 99.9% UV protection. And DX™ anti-fog hard coat resists fogging, scratching, static and chemical attack.

*QX2000 and QX3000 models

Great Looks. Great Coverage. Great View. The sweeping curves of the polycarbonate lens and accent frame color give QX the popular athletic look. The wraparound design also provides excellent front and side coverage. Plus, the "seamless" lens allows for distortion-free vision and excellent peripheral clarity.

Personalize With Choice Of Temples, Lens Tints and Nosepieces. QX eyewear is available with options to maximize fit and comfort for virtually every worker. There are three temple designs, and two nosepiece styles to provide better fit for a wider selection of facial profiles. When people have eyewear that fits and feels better, it's a real plus for compliance.
