# NEW SX™ SAFETY EYEWEAR

## Sports Styling For Men And Women

You've seen the sweeping curved lens and frame accents on the sports glasses worn by top athletes. Now, SX eyewear brings this same contemporary look to the workplace. The two available frame profiles complement all face shapes and encourages wear because, while people want to be safe, they want to look great, too.

## Extended Coverage. "Seamless" View.

The tough, high-impact Duralite™ polycarbonate lens wraps around the face to provide extensive front and side coverage, and provides 99.9% UV protection. Better yet, the lens design is seamless, without any structural interruptions. The result is a distortion-free, excellent viewing range, top to bottom and side to side.

## Performance Beyond The Standard

SX eyewear exceeds ANSI Z87.1, CSA Z94.3 high velocity impact standards. Meets Military V<sub>0</sub> Test Regimen for high velocity impact protection. All lenses feature DX™ Anti-Fog hard coat that resists fogging, scratching, static and chemical attack.

**Patented, Easy Change™ lens system allows lens change-out in seconds.**

**DX™ Anti-Fog Hard Coat.**

**Closed**

**Open**

**Adjustable length temples for comfort and fit.**

**Clear-out frame**

**Full frame**

**The clear-out frame design allows upward vision.**

**Choose from clear or gray lens.**
