

UltraFlex™ and TracerFlex™ Banded Protectors

The New **UltraFlex™** semi-insert hearing protector features the patented protection of UltraFit®-style tips. The triple-flanged plug forms a comfortable and effective seal against noise. Designed as a lightweight, cost-effective alternative to an earmuff. Pivoting headband allows for multiposition wear. Compatible with other personal protective equipment. Lightweight design allows for all-day comfort. Dielectric. Hygienic pods are washable and replaceable. Available in a resealable poly bag. Sold per pair. NRR 27 dB when worn under the chin; NRR 24 dB over and behind the head.

The new **TracerFlex™** semi-insert hearing protector contains a surgical grade, stainless steel ball bearing in its tip for metal detectability. Band and plugs are also metal detectable, making this hearing protector ideal for environments where foreign object detection is essential. Features patented, triple-flanged UltraFit™ earplugs, providing ultimate comfort and effectiveness. TracerFlex™ is designed to provide equal or higher protection than most earmuffs. Compatible with other personal protective equipment. Dielectric. Hygienic pods are washable and replaceable. Available in resealable poly bag. Sold per pair. NRR 27 dB under the chin; NRR 24 dB over and behind the head.

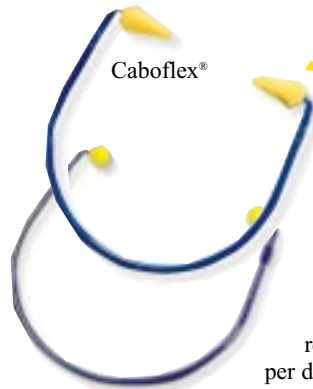

ReFlex™ Semi-Insert Hearing Protector

The banded ReFlex™ semi-insert is made of E•A•R Form™ foam for optimum softness and excellent attenuation. The innovative patented headband swivels to provide a variety of wearing positions, helpful when wearing other personal protective equipment. May be worn under the chin, behind the neck, or over the head. Headband can be adjusted to reduce or eliminate noise transmission through the band itself. Fully dielectric. Band sold individually. Replacement pods available. Sold per pair. NRR 25 dB.

E•A•R® CaboFlex® and Caps® Semi-Aural Hearing Protectors

CaboFlex® 600 features nonirritating, conical silicone pods, each containing a Classic™ earplug. Pods swivel for easy alignment and insertion. Sold per pair. NRR 20 dB.

Caps® Model 200 comfortably seals opening without entering ear canal. Soft, dermatologically safe foam caps mold easily for a positive, custom fit and constant attenuation. Sold per pair. NRR 17 dB.

Each product features an UltraFit®-style dielectric headband that can be worn under the chin or placed around the neck. Each has replacement pods available. Both have packed one unit per bag. 10 bags per dispenser. Replacement pods are sold 5 pair per pack.
